Dear Team Leader,

I wanted to give you a quick update about our group project. We have completed the basic research and finished some of the important sections. The team members have also started working on their assigned parts, and most of the work is going according to our plan.

We have faced a few issues during the project. Some information was difficult to find, and it was also a little difficult to coordinate with all the team members because of our different class timings. This caused a small delay, but we have discussed the problems and are working together to complete the remaining work.

We are planning to complete the project by **12 October 2026**. After completing it, we will review everything once and make the necessary corrections before submission.

Thank you for your support and understanding.

Yours sincerely,

ID: 2620030203
